Nahuel Delias

New York, NY | njdelias@gmail.com | LinkedIn | GitHub | nahueldelias.com

Education

University of Southern California Los Angeles, CA
M.S. Integrated Design, Business, and Computer Science, GPA: 3.9

B.S. Music Business

Involvement: Hispanic Scholarship Fund Scholar, SHPE Scholar, ColorStack

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL (PostgreSQL), HTML/CSS
Full-Stack: React, Next.js, Node.js, tRPC, PostgreSQL, Drizzle ORM, Zod, REST APIs, webhooks
Platforms: Inngest, Stripe Connect, Clerk, Fly.io, GitHub Actions, Sentry, PostHog
AI & Testing: Claude Code, Codex, AI agents, evals, Playwright, Vitest, CI/CD, code review
Product & Design: 0-to-1 product development, PRDs, design systems, prototyping, user research, Figma
Spoken: English, Spanish, Portuguese

Experience

Product Engineer November 2025 – Present
vers1ons *Los Angeles, CA (Remote)*

- Created a satellite split-sheet signing app from 0 to 1 in 13 days to bring new users into the main platform: 200+ agreements created, 20% of users paid, and 50% of outside users applied to the main beta.
- Led the build of the release pipeline that has shipped 100 releases to Spotify, Apple Music and other stores; made it distributor-agnostic with modular adapters and retry-safe workflows so we can sign clients on other distributors.
- Turned third-party client feedback, checked with other clients and advisors, into features that cut release-flow time by 50%.
- Built a live PostgreSQL/Stripe Connect credit ledger that lets third-party clients give away licenses through real purchases.
- Built a human-in-the-loop agent for rights clearance, where a song can need 10+ sign-offs, that quotes evidence from each email and drafts follow-ups; allowlisted tools and injection evals, now testing on simulated publisher deals.
- Led a redesign investors and beta users praised: a 40+ component design system with CI enforcement and Claude Code skills that cut routine UI prototyping by 80%.

Software Engineering Intern May 2025 – November 2025
vers1ons *Los Angeles, CA (Remote)*

- Built the landing page and messaging UI in Next.js and React, and led 10+ stakeholder walkthroughs that set requirements.
- Earned a full-time Product Engineer offer within six months to own backend work and build out music distribution.

Design Strategist *(Contract)* June 2025 – December 2025
Ernst & Young (EY) [Through USC Iovine & Young Academy] *Los Angeles, CA*

- Surfaced 5+ client-experience opportunities for EY Wavespace from 15+ stakeholder interviews and 20+ research sessions.
- Presented the findings and opportunities to EY leadership in a 40-slide strategy deck.

Product Designer & UX Researcher (*Intern*) March 2025 – June 2025
VideoDraft (Techstars) *Los Angeles, CA*

- Designed the user flow and agent experience for an AI text-to-video app and helped shape its agent architecture.
- Ran 30+ user interviews and 10 usability tests that shaped the flow from prompt to script, mood board, and video.
- Refreshed the app's look and made AI video walkthroughs with ElevenLabs voiceover, helping win early beta users.

AI/LLM Evaluation *(Contract)* May 2024 – December 2024
Outlier AI *Remote*

- Improved content accuracy by 8% by refining 100+ GPT-based prompts and flagging hallucinations and failure modes.

Projects

Vera | *Open-Source Personal Project* | github.com/ndelias/vera 2026

- Showed in two years of GitLab data that changes doubled in size while review comments per line fell 40%; building an open-source review agent whose first version matched my labels on 48 of 50 changes at 1–2 cents a review.

Leadership

Founder & Mentor September 2024 – Present
Ignite

- Founded a high-school mentorship program that has helped 50+ students apply to college and careers after high school.
