Nahuel Delias

New York, NY | njdelias@gmail.com | LinkedIn | GitHub | nahueldelias.com

Education

University of Southern California — Los Angeles, CA
M.S. Integrated Design, Business, and Computer Science, GPA: 3.9 — *December 2025*
B.S. Music Business — *May 2025*
Involvement: Hispanic Scholarship Fund Scholar, SHPE Scholar, ColorStack

Technical Skills

Languages: TypeScript, JavaScript, SQL (PostgreSQL), Python, HTML/CSS
AI: LLM agents & tool calling, prompt engineering, guardrails, evals, Claude Code, Codex, Cursor
Frontend: React, Next.js (App Router), Tailwind, shadcn/Radix, react-hook-form, TanStack Query, Zustand
Backend & Data: Node.js, tRPC, Hono, Zod, Drizzle ORM, PostgreSQL, Redis, Meilisearch, Inngest, REST APIs, webhooks
Platforms: Stripe Connect, Clerk, Resend, Cloudflare R2, Vitest, Playwright, Sentry, PostHog, GitHub Actions, Fly.io
Product & Design: PRDs, prototyping, user research, usability testing, Figma, design systems, mobile UX
Spoken: English, Spanish, Portuguese

Experience

Product Engineer — November 2025 – Present
vers1ons — *Los Angeles, CA (Remote)*

- Led the music-distribution pipeline that gets artists' releases onto Spotify and Apple Music, integrating third-party partner APIs with retry-safe multi-step workflows, webhook-driven live status, and takedowns (~110 PRs).
- Built a human-in-the-loop AI agent that turns inbound rights-clearance emails into proposed updates and draft replies for operator approval; hardened it against prompt injection (locked tool allowlist; 7/7 evals passed).
- Designed a Postgres and Stripe Connect payments ledger that makes double-spends impossible (append-only entries, row locks, database-enforced idempotency) with split credit-and-card checkout; shipped in 4 days.
- Wrote the PRD for and shipped a payout flow for co-writers without accounts, with automated outreach and identity verification so no one can impersonate a rights holder; closed 3 unauthorized data-access paths before launch.
- Shipped sheets.vers1ons.com solo, from idea to paid product in 13 days: a split-agreement builder with multi-party e-signing, signed-PDF generation, and a Stripe paywall.
- Grew from intern to the team's top contributor in under a year (329 merged PRs, ~2,500 tests); led the ~530-file design-system overhaul with a CI lint gate and Claude Code skills.

Software Engineering Intern — May 2025 – November 2025
vers1ons — *Los Angeles, CA (Remote)*

- Built the landing page and messaging UI in Next.js and React, then moved into backend and API integrations.
- Led 10+ product walkthroughs with stakeholders and turned their feedback into product requirements.

Design Strategist *(Contract)* — June 2025 – December 2025
Ernst & Young (EY) [Through USC Iovine & Young Academy] — *Los Angeles, CA*

- Led 15+ stakeholder interviews and 20+ research sessions for EY's Wavespace innovation hub, turning findings into 5+ client-experience opportunities.

Product Designer & UX Researcher (*Intern*) — March 2025 – June 2025
VideoDraft (Techstars) — *Los Angeles, CA*

- Designed the product workflow for an AI text-to-video tool: prompt to script, breakdown, mood board, and video.
- Consulted on what the AI agents should do for YouTube, social, and film-pitch videos; cut build time 20%.
- Ran 30+ user interviews and 10 usability tests, raising satisfaction 30% and cutting script review time 50%.

AI/LLM Evaluation *(Contract)* — May 2024 – December 2024
Outlier AI — *Remote*

- Refined 100+ GPT-based prompts and flagged hallucinations and failure modes, improving content accuracy by 8%.
- Ran A/B tests on 30+ AI-driven UX concepts and shared the analysis with engineers, PMs, and designers.

Projects

Vera | *Personal Project* | github.com/ndelias/vera — 2026

- Designing a four-agent review system for AI-written code that maps risk, briefs each reviewer, checks understanding, and coordinates sign-off; built the TypeScript core (traces, cost tracking, redaction) and a demo on Vercel.

Leadership

Founder & Mentor — September 2024 – Present
Ignite

- Founded a high-school mentorship program; run 3+ ongoing workshops on college applications, financial aid, and careers.
